

## SDG-Forum Belgium

Seminar: integrating SDGs in the  
Regulatory Impact Assessment

29/10/2020

Luxembourg's impact assessment  
tool "Nohaltegkeetscheck"

## legal basis

- law on coordination of national politics for sustainable development
- commission on sustainable development (representation by all ministries)

## political decisions

- national plan for sustainable development (chapter on governance)
- governemental program (2018-2023)

## existing assessment tool for legal proposals

- on financial impact
- on gender

## Reference document = national plan for sustainable development (PNDD) and its 10 priorities

1. ensure social inclusion and education for all
2. ensure conditions for a healthy population
3. promote sustainable consumption & production
4. diversifying and securing an inclusive and forward-looking economy
5. plan and coordinate land use
6. ensure sustainable mobility
7. stop the degradation of our environment and respect the capacity of natural resources
8. protecting the climate, adapting to climate change and ensuring sustainable energy
9. contribute at global level to poverty eradication and policy coherence for SD
10. Securing sustainable finances

1. Does the draft law or regulation under the heading have an impact on the priority ...of PNDD?
2. In case of negative answer, briefly explain the reasons.
3. In the event of a positive response, what are the possible positive and/or negative effects of this impact?
4. What categories of people are affected by this impact?
5. What measures do you envisage in order to be able to mitigate the negative effects and how the positive aspects of this impact could possibly be reinforced?

- 5 questions to be answered for each of the 10 priorities of the PNDD
- questions are accompanied by points of orientation or guidance and eventually a web link to documentation
  - e.g. under priority 1 related to social inclusion and education for all : Does the draft bill under heading have an impact on the equality of women and men, namely the reduction of pay inequalities and the reduction of the pay gap and the promotion of balanced representation at all levels of society?

- questions and points for orientation/guidance elaborated by the commission on sustainable development
- pilot projects on two laws (finance and housing)
- “Nohaltegkeetscheck” will be part of a digital working flow for the legislative procedure

- elaboration by the commission for sustainable development
- pilot projects
- close collaboration with the Ministry of State in view of the objective on improving the quality of legislation and policy coherence
- need of appropriation and understanding
- new working method (Nohaltegkeetscheck to be filled out while drafting legal proposals)

Thank you for your attention
